- **12th**
Daffodils Hr. Sec. School, Bhopal
2019

- **10th**
Daffodils Hr. Sec. School, Bhopal
2017

KEY PROJECT

Police Feedback Management System
Developed a web-based "Police Feedback System" as part of the Rajasthan Police Hackathon to address the need for efficient feedback collection and analysis in law enforcement.
Utilized HTML, CSS, JavaScript for the frontend, and Node.js for the backend to create a user-friendly interface for citizens to provide feedback on police services.
